

Hard Plastic Combo Desk

Shown with plywood top
and chrome frame

Features

Seat:

- Seat and back are formed from 5/8" thick high-impact hard plastic that has been molded into a homogeneous unit by heat and pressure

Frame:

- Back support is a tube-within-a-tube construction. The outer tube is 3/4", 16-gauge, high carbon tubular steel. The inner tube is 5/8" 14-gauge tubular steel for superior strength
- Legs are constructed from 1 1/8", 16-gauge tubular steel
- Nickel-plated chrome or black powder coat finish assures long-lasting durability

Work Surface:

- Desktop is available in 19" x 24" laminated plywood or 18" x 24" hard plastic
- Plywood Laminate Top features 3/4" thick, 13-ply hardwood core with a high-pressure laminate surface and phenolic backer sheet to minimize warping
- Hard Plastic Top is formed from 5/8" thick high-impact hard plastic that has been molded into a homogeneous unit by heat and pressure

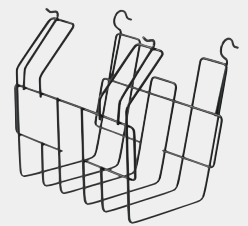

Bookrack:

- Optional field installed bookrack is formed from 18-gauge steel rods
- Available in heavy-duty nickel-plated chrome or black powder coat finish
