

Mobile Storage Cabinets

Adjustable shelf 1 drawer
mobile storage unit

Features

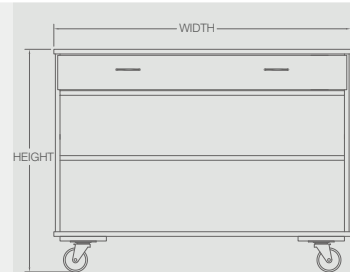

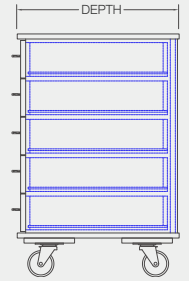

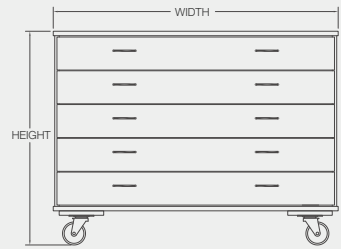

- Cabinets are constructed of 3/4", 13-ply birch plywood with joints that have been reinforced with a strong, durable wood glue, and 7mm screws and dowels
- Shelves are constructed of birch veneer panels
- Drawers are constructed from 5/8" 11 ply birch plywood with a 1/4" hardboard bottom. All drawer boxes feature rabbet joints that are screwed and glued for additional strength
- Edges are sanded and shaped smooth
- Exposed corners are rounded
- Back panels are reinforced with steel dowels and metal locking cams for durability
- Doors are equipped with self-closing hinges and are held shut with double roller friction catches
- Doors and drawers are equipped with a standard 3 3/4" pull
- Ships fully assembled
- Shelf is dadoed for maximum strength and durability
- Finished in a clear environmentally friendly ultra-violet cured acrylic that is virtually impervious to all common classroom disinfectants
- 4" diameter heavy-duty locking casters are bolted in place
