

NeoMove2™ Chair

Features

NeoMove2™ chair is perfect for group collaboration activities in the 21st Century classroom. Dynamic mobility, range of motion and comfort allow students to quickly transition from multiple learning groups and activities to lecture based learning.

Chair Shell

- The polypropylene seat swivels 360 degrees and offers a waterfall edge reducing pressure points and promoting improved circulation, enhancing ergonomic comfort
- The Chair shell is available in our 12 vibrant NeoClass colors

Tablet

- The tablet top is a generous 14" x 26" work surface area
- Tablet is available in ABS plastic in Titanium color and laminate options with painted or LockEdge banding
- ABS plastic tablet has handy molded pencil holder
- The unique tablet and tablet arm swivel capability accommodates both left and right handed students

- Tablet arm has a unique interval indexing mechanism that holds designated positions selected as the student moves the arm to accommodate the best sitting position
- The chair can be ordered with or without a tablet

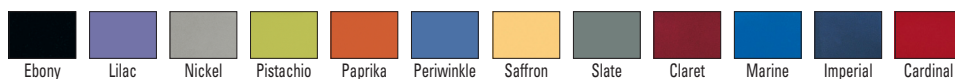

Base

- A welded steel base construction with Titanium powder coat finish combines a stylish contemporary look with strength and durability
- The base is designed for easy open access to a generous bottom storage area and is accessorized with a water bottle holder
- The base can be accessorized with a polypropylene base cover to match the shell color and offer a flat storage surface. The polypropylene base colors are available in our 12 vibrant NeoClass colors to match the chair shell
- Durable casters offer smooth transition of movement and rotation
